

Polytype Converting is your supplier of coating technologies and equipment for the surface finishing of a wide range of flexible films and papers for the highest demands. Our activities are primarily oriented towards our customers and their products. As a leading technology provider in our segment, we develop integrated solutions that meet our customers' requirements in terms of quality, productivity and optimized product costs.

For our location in Fribourg, we are, as of now, looking for a

MECHANIC / PROCESS TECHNICIAN for our Technical Center (m/f/d)

Your Tasks

- Set-up and operation of our in-house test lines (coating lines - Techma 1 and Techma 2)
- Technical preparation of the tests
- Setting, monitoring and control of the lines during application tests and customer visits, in collaboration with our process engineers
- Maintenance and servicing of the Techma lines
- Collaboration in the optimization of coating processes

Your Profile

- Completed training as a mechanic/fitter or comparable technical training
- Knowledge in the field of our coating lines is an advantage
- Good communication skills and solution-oriented working style
- Flexibility, ability to cooperate and work in a team
- Language skills: German or French, ideally also English
- Pleasure in working autonomously and on one's own responsibility

You can expect a diversified range of tasks with a wide range of creation and development possibilities. We look forward to receiving your informative application documents stating the earliest date you could start as well as your salary expectations. We ask you to please send your application in pdf format and combine all documents in one file.
