

OLBRICH

OLBRICH GmbH is nationally and internationally active as machine and plant engineering company with more than 900 employees. We are a system provider for machines and lines for the production of web-shaped products such as wallpaper, floor coverings, films/foils and technical textiles.

For the reinforcement of the Corporate IT at our Bocholt plant we are, as from now, looking for an:

ERP TECHNICAL PROJECT LEAD / APPLICATION MANAGER (m/f/d) (with the perspective of taking over the ERP team lead)

Your Tasks

- Technical project management of the company-wide ERP introduction project.
- Analysis, optimisation and automation of business processes in close cooperation with the department managers and the overall ERP project management
- Advice and support of the process-responsible persons, key users and end users
- Control of and assistance to the software consultants (internal and external)
- Communication interface between project team and IT in all technological concerns
- Planning and implementation of workshops and user trainings
- Operation, further development and optimisation of the ERP system landscapes
- Development and monitoring of interfaces for the connection of third systems
- Documentation of process and system modifications
- Perspective: takeover of the ERP team lead

Your Profile

- Successfully completed computer science studies or a successfully completed dual vocational education in the IT sector
- Several years of experience in the introduction of ERP systems in the role as consultant or technical consultant
- Sound knowledge in the operation of an ERP system
- Experience in dealing with workflows and interface technologies
- Knowledge of multidimensional databases and/or relational databases (Microsoft SQL Server)
- Administration experience (Windows Server) and programming experience
- Pro-active personality with passion and ambition for continuous further development
- Ability to think and judge analytically and conceptionally
- Ability to quickly comprehend complex matters and to communicate them in an easily comprehensible way
- Strong communication and presentation skills in German and English
- Willingness to cooperate and conflict ability
- Flexibility and resilience in special situations
- Independent way of working, self-responsible and responsible acting
- Passion for innovation and technology affinity
- Routine handling of Microsoft Office
- Willingness to travel occasionally

You can expect a diversified range of tasks with a wide range of creation and development possibilities. We look forward to receiving your curriculum vitae, stating your salary expectations and the earliest date you could start.
